Additional subsidies paid out for services

\$89,165 / 2,247 ANIMALS

OUR FRIENDS THINK WERE PRETTY PAWESOME

"I recently had my six month old, pit mix puppy neutered at NW Spay & Neuter Clinic. They fulfilled everything we discussed on the phone. I know its the responsible thing to do but, was concerned as he was so young. When picking Diesel up the next morning, it was like nothing ever happened to him. He was happy, he had NO symptoms of being over medicated, there were NO complications from the surgery, NO problem with the little green tattoo. He has shown no signs of discomfort at all. He was recently potty trained before surgery and I was concerned he might not remember to go to the gate to go outside, however, he remembered his routine and has had no accidents. A very successful neuter, by a loving, caring, well qualified staff and volunteers. Diesel and I thank you so much!"

"Took both my dogs here. Friendly and compassionate staff, made for an easy experience."

"This was my first time using NW Spay & Neuter center. I went because this service is their specialty. Boy, did they do a phenomenal job on Dash! This is day four, post-surgery. The incision and close are clear and look a week ahead of the normal healing I have seen. An added benefit is that the price is significantly less than our normal vet! When the day comes that we need more of this care, it will be NW Spay & Neuter clinic for our pets!"
