OUR FRIENDS THINK WE'RE PRETTY PAWESOME

"Amazing! 3 of my cats were taken here. We brought them in first thing in the morning (be on time! They're busy and have lots of furry friends to see) and picked them up first thing in the morning the next day. My cats didn't seem to be in any pain, or really any discomfort. They weren't frightened, and seemed to have a good experience (good, considering what the experience consisted of.) they even called to let me know how everything went, the day I brought my babies in, right after their procedures. Absolutely amazing, caring, cheap in price!"

"These are wonderful, caring people who provide an essential service for the best price around. My cats were neutered safely and returned the next day. Highly recommended."

"Absolutely great experience. We had our 95 lb American Bulldog go in for neutering. Very friendly and professional. They explained everything very well. Drop off and pick up were a breeze. You can't beat the service or the price!"
